

Geometry Choice Board

Students will complete the Geometry Choice Board by choosing 3 activities of their choice. Students can then have a class discussion or create their own choice board.

Materials

- Google Classroom
- [Link to Google Slide](#)

Student Objectives

- Students will identify geometric figures and create informative writing pieces and/or illustrate them.

Teacher Technology Skills Needed

- Creating a Google Classroom
- Posting an Assignment to Google Classroom
- Sharing Resources via Google Classroom

Standards

- 6.G.3 Draw polygons in the coordinate plane given coordinates for the vertices; use coordinates to find the length of a side joining points with the same first coordinate or the same second coordinate.
- 7.G.2 Draw (freehand, with ruler and protractor, and with technology) geometric shapes with given conditions.

Procedure

1. Post an Assignment to your Google Classroom in Classwork.
 - a. Students will use the link in Google Classroom to enter the Google Slide presentation of the Geometry Choice Board.

2. Students will complete the activities of their choosing from the Geometry Choice Board.

Extension Activity

- Students can have a class discussion via Google Classroom “Ask a question” and share what part they thought was the most difficult, what part might be most challenging to a new student, etc.
- Students can create their own choice board.
