

# Cybersecurity Webquest

## Do's & Don'ts of this activity

Student Choice:  
Provide a list of  
recommended sites for  
students to research safe  
account creation

Have students work in  
partnerships or  
independently

Set aside time for students  
to share their webquest  
findings with a larger group

Stop exploration of non  
age-appropriate websites:  
Avoid letting students pick  
any 3 websites to explore  
safe account creation

Keep group size to 3  
students or less to keep all  
students engaged and  
participating in the  
webquest

**Computer Science and Digital Fluency**

**Standards Alignment: 2-3.CY.2**

# Website #1

**What website did you research?**

**What is the website URL?**

**Are there any password rules?  
(circle one)**

**YES NO**

**If so, what are they?**

**Why would someone go to this website?**

**Are security questions required?**

**YES NO**

**If so, what is an example choice?**

**What is the final step of account creation?**

**Take a screenshot of the account creation window and add it here:**

# Website #2

What website did you research?

What is the website URL?

Are there any password rules?  
(circle one)

**YES**      **NO**

If so, what are they?

Why would someone go to this website?

Are security questions required?

**YES**      **NO**

If so, what is an example choice?

What is the final step of account creation?

Take a screenshot of the account creation window and add it here:

# Website #3

**What website did you research?**

**What is the website URL?**

**Are there any password rules?  
(circle one)**

**YES NO**

**If so, what are they?**

**Why would someone go to this website?**

**Are security questions required?**

**YES NO**

**If so, what is an example choice?**
